DON'T DAIRY WITHOUT NEXUS, IT'S THE NEW STANDARD IN MILKING EQUIPMENT!

FLOWNEXUS BECO PARLOR MONITORING SYSTEM G2

- Parlor performance reporting with easy to use dashboards**
 - Dashboards are customizable to meet each dairy's needs
- Unrestricted 7/8" milking for the best milking experience for your cow**
 - Large diameter allows for a steady average claw vacuum
- Easily Upgradeable to a milk meter**
 - No change out needed, just plug and play
- Full color display with milking graph and other vital information**
 - A quick visual to see milking performance on the fly
- Simple, rugged detacher with a 5 year warranty**
 - Best in the industry

SCANNEXUS BECO PARLOR MONITORING SYSTEM G2

- Accurate flow-through meter, NOT a milk yield indicator**
 - Very accurate meter that does not need to lift milk or restrict it to be accurate
- 7/8" flow-through milk path**
 - This makes for a steady claw vacuum allowing for the best milking experience
- No maintenance required**
 - No maintenance kits to buy and pay to have installed, nothing to replace
- Plug and play installation**
 - Truly a plugin meter that allows for fast and easily installation
- Temperature and Conductivity included**
 - Allows for more data points for managing your dairy

PULSNEXUS BECO PULSATION MONITORING SYSTEM G2

- 24/7 pulsation graphing**
 - No need for a monthly bill, pulsators are graphed continuously
- Monitors pulsation performance 24/7**
 - Dairy knows right away if there is a problem with the watchdog program
- Dashboard and daily reports**
 - Customizable dashboards and reports to help manage your parlor's performance
- Alarms with diagnostics, not just a red light**
 - If there is an issue, the PulsNexus will tell exactly what is wrong with the system
- Easily adapts to all systems**
 - The PulsNexus will work with any manufacturer's pulsator or detacher
